THOMAS SPÅRE

JUNIOR FULLSTACK DEVELOPER

Proficient in HTML, CSS, Javascript, Python, Django REST and React. My previous jobs as a sound technician & studio manager have given me excellent skills in communcating with customers to solve technical problems in various situations.

Received Fullstack developer training at Code Institute in 2023 with Advanced Frontend as specialization. I am currently working on building my portfolio websites and extending my coding skills by being enrolled at a course at Harvard University: Artificial Intelligence with Python.
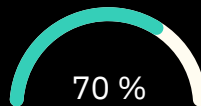

I am a career changer and a learner who is passionate about getting better at coding. Outgoing personality and I enjoy working together with people in teams. I am a small business owner and family man with two children living on the countryside of Jönköping, Sweden.
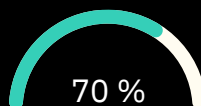

Curriculum Vitae
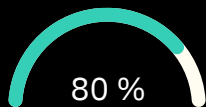

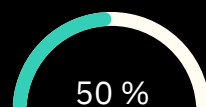

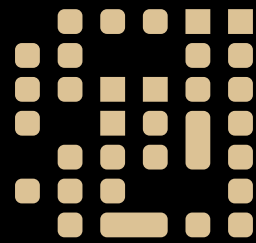

SKILLS

70 % Frontend dev
